Online Graduate Certificate
Security Management

Courses are offered entirely online, and are taught by the same faculty members that are involved in the on-campus program. A number of online support services are available to assist students.

Courses are available to:

- Current MSU graduate students who are enrolled in on-campus or online programs
- Practitioners and others who wish to earn credits toward a related degree program at MSU or another institution (Lifelong Education)
- Anyone who wishes to earn a certificate for professional development and career enhancement (Lifelong Education)

You should know...

- Admission to the graduate program is not required
- GRE is not required*
- All courses:
  - Online
  - Graduate level
  - Recorded on an MSU transcript
  - May be applied toward a graduate degree at MSU or transferred

* Students must enroll as Lifelong Education Student

MSU Course Descriptions

**CJ 809 Issues in CJ: Public/Private Partnership**
This course explores the interdependence between the public and private sectors in protecting communities and national security. Students will be exposed to specific guidelines and lessons learned for effective public and private partnerships, with emphasis on critical infrastructure protection, risk management, contingency planning, and supply-chain security.

**CJ 885 Security Management**
Organization and management of security operations in business, industry, and government.

**CJ 886 Security Administration**

**CJ 890 Independent Study**
Individual research and writing under faculty supervision.

Enrollment
Students who are not already enrolled in a degree program at MSU will need to submit the Lifelong Education application.
