## COMMUNITY ENGAGEMENT - YATA

---

**Co-Founder, Director** 2011 – 2017

### *Youth Advancement Through Athletics (YATA)*

YATA is multi-faceted youth development program designed to reduce recidivism and promote academic achievement among adjudicated youth in Ingham County. From 2011 to 2017, the program designed and executed over 75 individualized, strength-based interventions for youth attending a court-run high school and trained a comparable number of undergraduate students to serve as mentors and staff members. The innovative program design integrates athletics, mentoring (with MSU undergrads), tutoring, community outreach, and career driven opportunities to provide youth, who attend a court run high school, with a strength-based, holistic intervention. MSU undergraduate student mentors enroll in a corresponding course based out of the Psychology Department. I, along with the contribution of my mentors and co-founder, designed the course to educate students in criminological theory, the history and key operations of the juvenile justice system, adolescents risk/needs assessments, and racial disparities in the juvenile justice system.

Specific responsibilities include: grant writing, data collection, staff selection, event planning, mentor training, teaching the affiliated college course, weekly supervision of staff members, and overall program implementation.
